

Announcement & Call for Abstracts:

4th International Glass Fiber Symposium in Aachen, Germany October 29-31, 2018

© P. Winandy / RWTH Aachen

The International Glass Fiber Symposium is the international meeting of the advanced glass fiber technologists. Aim of this event is to serve as the principal international forum for reporting outstanding research and development on glass fiber technology from raw materials to final applications.

During the days of this congress you can meet academics presenting cutting edge research as well as scientists, government administrators and decision makers. The International Glass Fiber Symposium is an unique occasion to come together with representatives of the world's largest companies in the glass fiber sector and many other practitioners.

Proposed Session Topics:

- Glass Quality
- Process & Technology
- Related Topics
- Glass Fiber Reinforced Composites
